- Received honours in “Financial Services” for the following categories:
 - Business of the Year Award
 - CEO of the Year Award to our MD & CEO, Dr. Pawan Singh

Q4FY21 – Key Performance Variables

Management Commentary:

The unprecedented pandemic last year triggered grave challenges across the globe. Despite all the hardships arising due to the pandemic, the united reaction sparked by the indomitable human spirit will go down in history as a testament of our endurance. Our business performance in the year gone by is also a reflection of that intrinsic resilience and adaptability. During the year, the company has resolved stress loans worth Rs.~124 crores and its business (sanctions as well as disbursements) have increased. We are unwavering in our commitment to have a clean and strong balance sheet, both in terms of the nature of our business and the quality of our portfolio. Improved cash flows and strong liquidity position enabled us to have a robust growth on operating and financial parameters. We are first mover in some of the established as well as upcoming sustainable green infrastructure finance sectors like renewable energy, waste water treatment plant, e-mobility, e-vehicle manufacturing. With around 50% of our loan book to renewable energy we will continue to focus on new areas of additionality and sustainability like annuity based infra, water sanitation, e-mobility, ports, highways etc. as well as renewable energy space, which will pave the way for stupendous growth in the coming quarters. With a strong order book, low borrowings cost and excellent credibility we begin the year FY 2022 on a strong growth momentum and significantly have a better sight for future growth.

Q4FY21 VS Q4FY20

- Net Interest Income (NII) for Q4FY21 increased to Rs. 96.48 crore as compared to Rs. 91.87 crore in Q4FY20
