PFS signed an MoU with Global Green Growth Institute (GGGI) for providing Technical Assistance support to refine, develop and establish Renewable Energy Focused IDF (RIDF).

PTC India Financial Services Limited (PFS) is an infrastructure finance company which provides a vast array of services to the entities in energy value chain. The Company invests in equity and/or extending debt to power projects in generation, transmission, distribution, and fuel sources, fuel related infrastructure, equipment manufacturers and engineering, procurement and construction (EPC) contractors, renewables, transmission, road HAM, annuity projects, e-mobility projects, other sustainable infrastructure projects and other economic strategy sectors. PFS also offers long-term and short-term loans, in addition to providing both fund and non-fund-based financial assistance as debt or structured debts. The Company believes in building a sustainable future and provides fund based/non-fund based financial services to green and brown field projects to help them grow and gain foothold in the industry

Mission

“To partner and forge strong relationships with credible stakeholders to provide complete financial solutions- equity, debt and other financial services for all links in sustainable infrastructure value chain and other related infrastructure sectors”

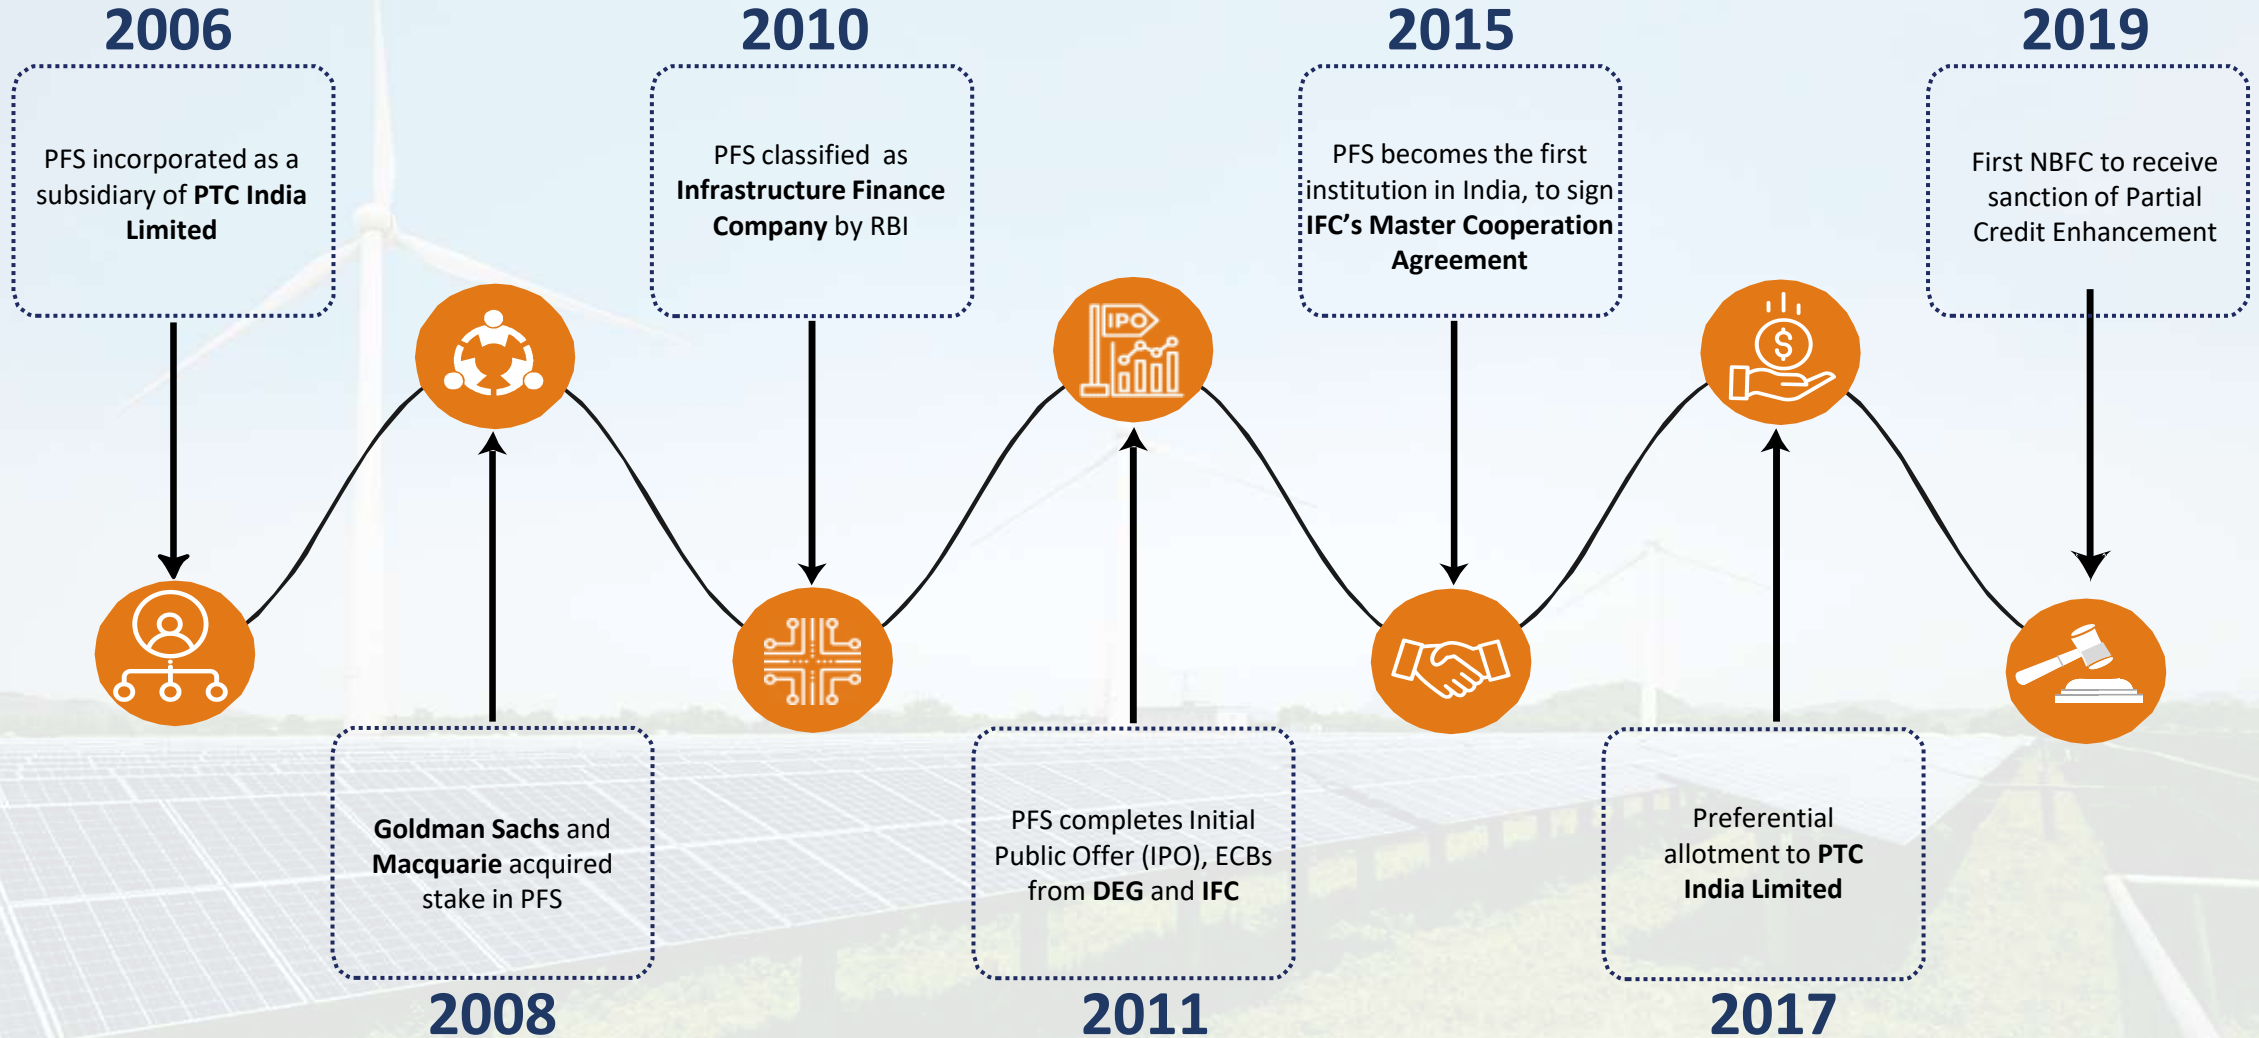

Vision

“To be the most preferred financial partner in sustainable infrastructure value chain”

COMPANY OVERVIEW-MILESTONES

GREENER

STRONGER

SUSTAINABLE

**WE EXTEND OUR SUPPORT TO
FINANCE ENVIRONMENT-
FRIENDLY PROJECTS WHICH
CONTRIBUTE TOWARDS**

PFS offers various investment and financing products/solutions to Infrastructure and Power projects, the details are illustrated in the graphic below:

Debt Financing

PFS provides debt finance in the form of Long Term Loan, Short Term Loan as well as Bridge Financing to the projects in the entire energy value chain i.e. from power generation projects to transmission and distribution projects, fuel sources and to the related infrastructure. In addition, it also provides **Mezzanine finance, last mile finance, equity financing, structured loans, gap financing etc.** There are various factors considered for the debt assistance to any particular project/borrowing company viz. market conditions, regulatory requirements, risk and reward from the projects etc.

Fee Based Services

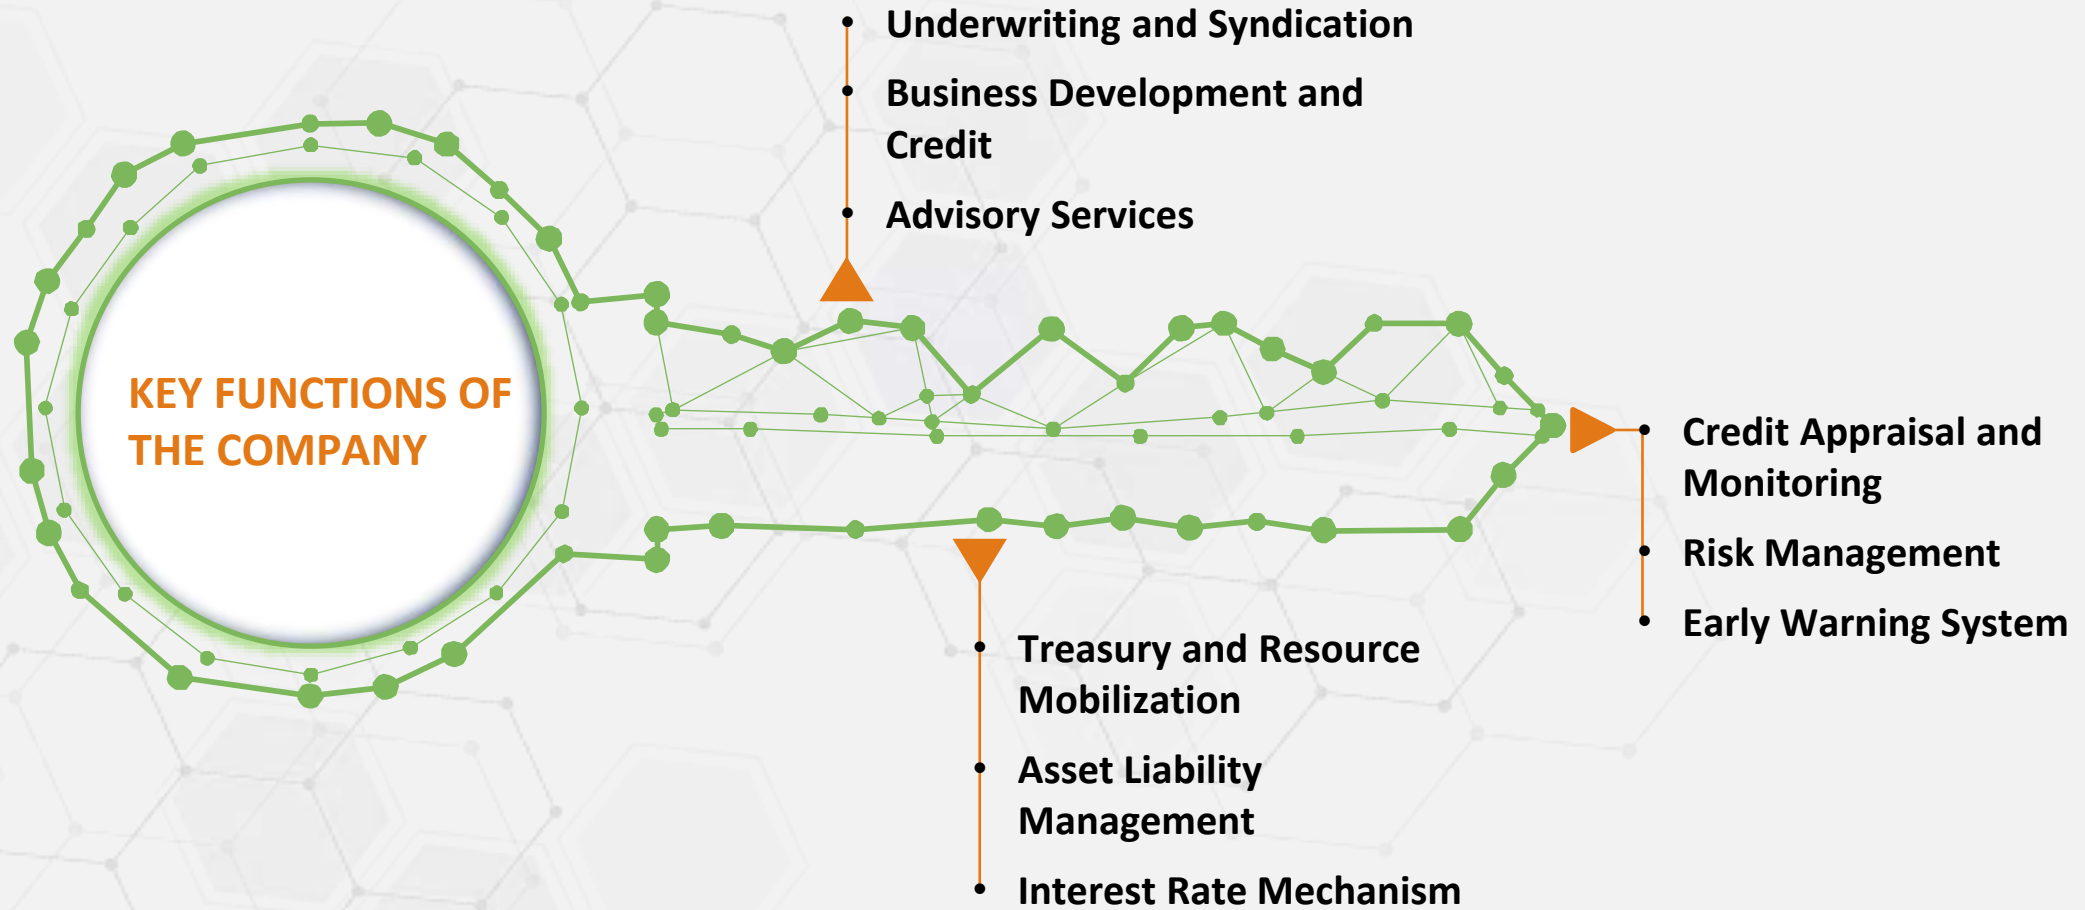

PFS team assists companies in structuring and raising debt and mezzanine capital tailored to their needs. Leveraging on its long term relationships with Banks and Financial Institutions and its experience in executing structured and vanilla debt transactions, PFS handholds companies in structuring and raising capital, which is optimal in terms of cost and structure. With an in house core team of professionals with sectoral as well cross-functional knowledge, PFS helps its clients to become competitive, effective and successful

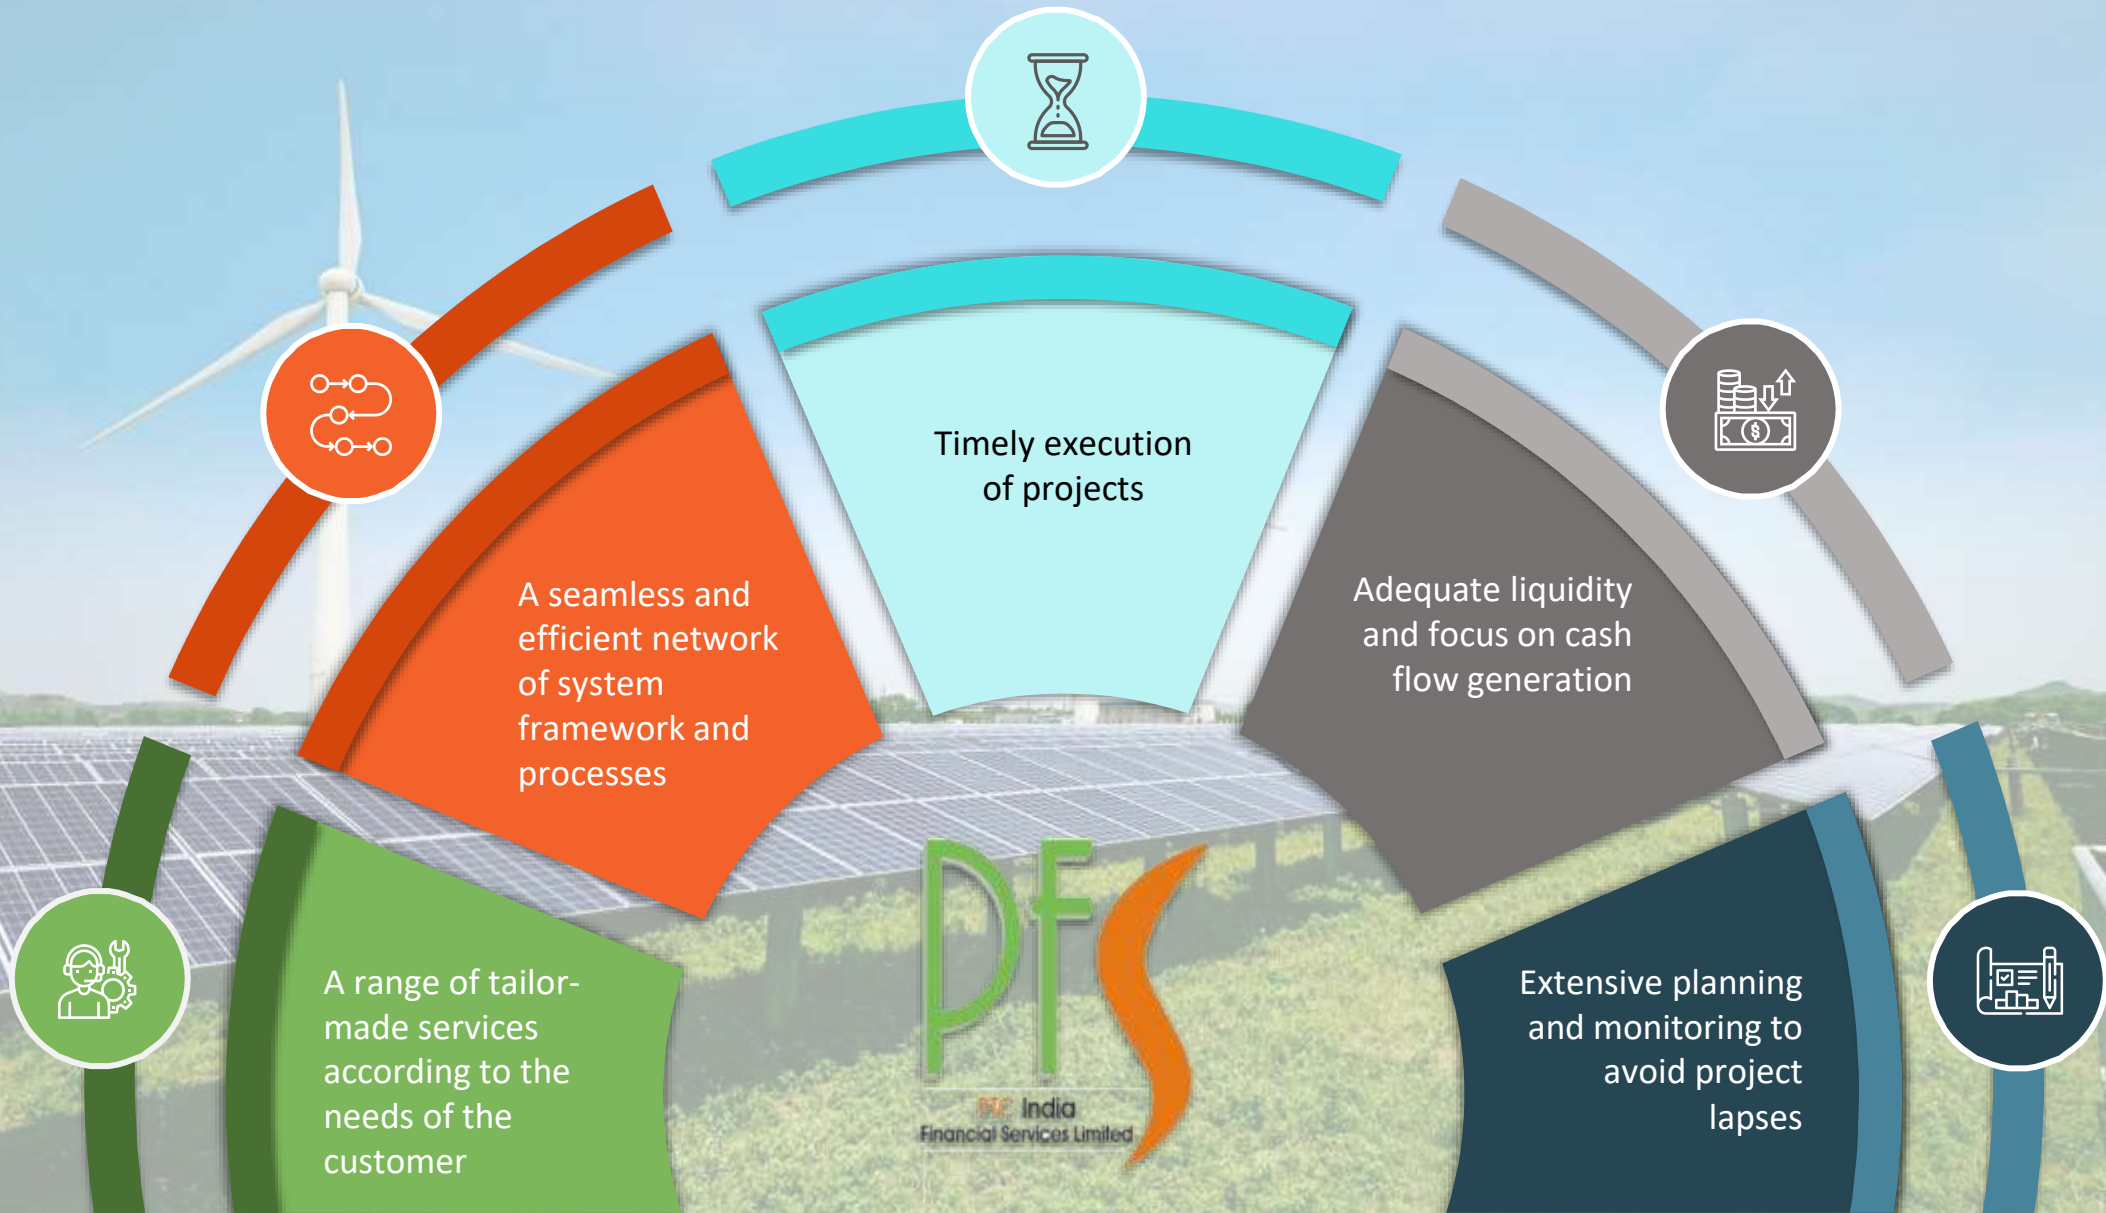

Advisory Services

PFS provides advisory services to the various infrastructure, renewable energy, energy efficiency projects and other projects for helping in efficient installation of these projects. The Advisory services are focused in the areas of finance and in the areas which lie at the intersection of finance and the energy sector

We have been the first movers in established and emerging green infrastructure finance sectors like *renewable energy, wastewater treatment plant, e-mobility, e-vehicle manufacturing* which are long-term sustainable in the future

Focus on Sustainable Infra and renewable projects which align with the Government's vision of a clean and green society

Motivated and experienced management who are proven experts in leading a business towards its vision

High Operating leverage and better Margins resulting to a sustainable business model

Favourably positioned to capitalise on growing opportunities in resilient sectors like transmission, waste water management, e-mobility, Road HAM and much more

Reduction in the number of Stress/NPA accounts to enhance the operational capabilities of the organisation

Credit Risk Management

- Implementation of Internal Credit Grading mechanism which captures sector specific risk related parameters during the entire loan-life cycle (i.e. pre-construction and post construction).
- Implementation of Early Warning System which has been integrated with internal credit grading mechanism to identify and closely monitor early warning signals to prevent slippages of performing loan accounts into NPA.
- Formulation of Corrective Action Plan for Loan accounts identified under EWS framework, and subsequently reviewing/monitoring on quarterly basis.
- Annual review of the entire portfolio through internal credit grading mechanism, wherein review of the security package, compliance of financial covenants is ascertained and assessed.

Market Risk Management

- Implemented the mechanism of Risk Based Pricing which has been integrated with internal credit grading mechanism.

Currently he is on board of Larsen & Turbo Limited, L&T Finance Holdings, L&T Infra Debt Fund.

The Company has emphasized on moving from consolidation to growth and expansion by enhancing its product offerings and focusing on quality portfolio. Our returns over the last few quarters underline our resolve to improve liquidity, improve value for the stakeholders, focus on achieving sustainable growth and contribute towards a better environment by relying on renewable energy. We are committed on our promise of maintaining a clean and robust balance sheet, in terms of nature of business, quality of portfolio and good governance standard borrowers. As a result, our thermal assets have come down to 12% from 50% in the last 4-5 years so as to decarbonize our balance sheet and to focus on sustainable green finance infrastructure projects. These measures are aligned towards our vision of becoming a sustainable infrastructure finance organization.

Our lenders, both domestic and international, have been very supportive due to which the Company's credit standing has enhanced drastically with large undrawn credit lines and declining borrowing cost. To ensure the financial stability of the Company, we are now lending in the more resilient sectors like transmission, road HAM and much more. This will help in highlighting our robust business model which is safeguarded from the economic headwinds.

OUR MARQUEE CLIENTS
